

Microsoft Learn Student Ambassadors Internship Report

NAME-AKSHAY CHAUHAN

BRANCH/YEAROF STUDY-CSE/2A

UNIV ROLL-2300290100031

This report presents an overview of my experience during the Microsoft Learn Student Ambassadors (MLSA) internship in Full Stack Web Development. This internship provided hands-on experience in developing web applications, enhancing my skills in HTML, CSS, and JavaScript. The modules provided by the team were very efficient and easy to learn.

Project 1: To-Do List

The To-Do List application was developed using HTML, CSS, and JavaScript. It allows users to add, remove, and manage tasks efficiently. This project helped practice my CSS learning as well as the basics of JavaScript.

Project 2: Calculator Application

The Calculator application, also developed using HTML, CSS, and JavaScript, performs basic arithmetic operations like addition, subtraction, multiplication, and division. This project allowed me to know and have a deeper dive into JavaScript functions.

THANKU MLSA TEAM FOR HELPING A LOT
